## REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a recording apparatus that detects a signal from being illegally copied. Independent claim 1 identifies the uniquely distinct features "a first detecting device whether a recording signal to be inputted from the outside is a recording signal conformable to DVD video standards only for playback, and an inhibiting device for, when it is detected that the recording signal conforms to the DVD video standards and it is detected that the recording signal includes the inhibition flag, inhibiting the recording signal from being recorded in another recording medium". The closest prior art, Kuroda (US PG PUB 2004/0101282 A1), Tozaki (US Pat. No. 5,729,516), and Asada (US PG PUB 2002/0076205) discloses a recording method, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
